Commercial Boilers (CBLR)

Certification Program

AHRI's globally recognized and industry respected certification program helps manufacturers sell more products, win bids, and comply with government requirements. Certify products with AHRI and stand out from the crowd.

AHRI CERTIFIED®
www.ahridirectory.org
Commercial Boilers
AHRI Standard 1500

Related Standard

Products in the CBLR certification program are tested to AHRI 1500, *Performance Rating of Commercial Space Heating Boilers.*

Program Scope

Gas- and oil-fired steam and hot water heating boilers with inputs ranging from 300 MBH to 2500 MBH, for which published ratings are available. Custom boilers are excluded from the program scope. Boiler models within a model series, or individual boiler models, having inputs over 2500 MBH may be included in the program at the participant's option.

Certified Ratings

The following certification ratings are verified by test:
Thermal Efficiency, %
Combustion Efficiency, %

Program Highlights

- Participation includes leading North American manufacturers
- Covers all regulated boiler types: gas, propane, oil, water, and steam
- Participants can test products at their own labs with a third-party witness
- Measurements include boiler net ratings (i.e., the actual heat delivered to a space)
- Optionally certifies boilers with inputs above 2,500,000 Btu/hr
- AHRI submits data for ENERGY STAR products at no additional cost or effort to participants
- AHRI reports data to the U.S. Department of Energy, the U.S. Federal Trade Commission, Natural Resources Canada, and the California Energy Commission for participants at no additional cost

AHRI CERTIFIED®
www.ahridirectory.org
Globally Recognized. Industry Respected.

The AHRI Certification Program is a voluntary program, administered and governed by the Air-Conditioning, Heating, and Refrigeration Institute (AHRI), which ensures that various types of heating, ventilation, air conditioning, refrigeration, and water heating products perform according to manufacturers' published claims. Products that are certified through the AHRI Product Performance Certification Program are continuously tested, at the direction of AHRI, by an independent third-party laboratory, contracted by AHRI, to determine the product's ability to conform to one or more product rating standards or specifications.
