

AHRI Data Subscription Program Packages and Fees

Pricing effective 1/1/2024 – 12/31/2024

The following fees apply to services provided January 1, 2024 – December 31, 2024. AHRI will assign the commercial usage or non-commercial usage classification to the Licensee upon examination of the Licensee's AHRI Data usage. Members of Consortium for Energy Efficiency (CEE) are eligible for discounted fees.

A Licensee shall pay a separate fee for each Tool, whether belonging to the Licensee or a Sublicensee, using or displaying AHRI Data. Example: If Licensee provides AHRI Data to Sublicensee A's Tool and Sublicensee B's Tool, a fee will be assessed for each. The Licensee can select different packages for the Tools.

If an Agreement is executed mid-year, the subscription package fee will be pro-rated to reflect the number of months remaining in the calendar year from the date the Licensee signs the License Agreement. The fee for any additional user accounts will not be pro-rated.

Commercial Usage Subscriptions		
<i>"Commercial Usage" means the Licensee receives compensation for providing AHRI Data for use by, or for display in, its own Tool(s) or a Sublicensee's Tool(s).</i>		
Subscription Package	Included Products	Annual Fee (Non-CEE Member/ CEE Member)
Unitary Data	Air Conditioners and Air Conditioner Coils (AC) Heat Pumps and Heat Pump Coils (HP) Unitary Large Equipment (Air Conditioners and Heat Pumps) (ULE) Variable Split Mini-Split Air-Conditioners (VSMSAC) Variable Split Mini-Split Heat Pumps (VSMSHP)	\$14,850.00 / \$14,175.00
Unitary + Cooling Data	Air Conditioners and Air Conditioner Coils (AC) Heat Pumps and Heat Pump Coils (HP) Variable Split Mini-Split Air-Conditioners (VSMSAC) Variable Split Mini-Split Heat Pumps (VSMSHP) Unitary Large Equipment (Air Conditioners and Heat Pumps) (ULE) Air-Cooled Chillers (ACCL) Datacom Cooling (DCOM) Direct Geoechange Heat Pumps (DGX) Packaged Terminal Air-Conditioners and Heat Pumps (PTAC/PTHP) Single Package Vertical Units (SPVU) Variable Refrigerant Flow Air-Conditioners and Heat Pumps (VRF) Water-Cooled Chillers (WCCL) Water-Source Heat Pumps (Water-to-Air and Water-to-Water Heat Pumps) (WSHP)	\$22,000.00 / \$21,000.00
Heating Data	Commercial Boilers (CBLR) Commercial Fin Tube Radiators (CFTR) Commercial Furnaces (CFRN) Commercial Water Heaters (CWH) Direct Heating Equipment (DHE) Heat Pump Pool Heaters (HPPH) Indirect Water Heaters (IWH) Residential Boilers (RBLR) Residential Furnaces (RFRN) Residential Water Heaters (RWH)	\$12,650.00 / \$12,075.00
Applied Data	Air-to-Air Energy Recovery Ventilators Components and Packagers (ERV) Automatic Commercial Ice-Makers and Ice Storage Bins (ACIM) Central Station Air Handling Unit Supply Fans (AHU) Central Station Air Handling Unit Casings (AHUC) Commercial Refrigerated-Display Merchandise (CRM) Forced-Circulation Heating and Cooling Coils (ACHC) Liquid to Liquid Brazed and Fusion Bonded Plate Heat Exchangers (LLBF) Liquid to Liquid Heat Exchangers (LLHE) Room Fan Coil Units (RFC) Refrigerant Recovery/Recycling Equipment (RRRE) Refrigerant Testing Laboratory (RTL) Transport Refrigeration (TR) Unit Coolers (UC) Variable Air Volume Terminals (VAV) Variable Frequency Drives (VFD)	\$2,200.00 / \$2,100.00
Additional Commercial Usage User Accounts, maximum 4 <i>Each subscription package includes up to two authorized users per Licensee.</i>		\$600.00 / user

Non-Commercial Usage Subscriptions

"Non-Commercial Usage" is for a Licensee that is a teaching institution using AHRI Data to teach its own students and does not charge students for access to AHRI Data, or is a Licensee using AHRI Data to conduct its own research and will not be displaying AHRI Data or providing it to a Sublicensee, or is a Licensee that is a federal, state, or local government agency.
