

Indoor Pool Dehumidifiers (IPD)

Certification Program

AHRI is the world's most trusted source of performance certified heating, cooling, ventilation and commercial refrigeration equipment and components. Only products that have passed AHRI's rigorous third-party testing can display the AHRI Certified mark. Find certified products at www.ahridirectory.org.

Related Standard

Products in the IPD certification program are tested to AHRI Standard 910(I-P)/911 (SI), *Performance Rating of Indoor Pool Dehumidifiers*.

Program Scope

This program applies to all production line OEM and PBM production models of residential, commercial, and industrial IPDs, as defined in Section 1.2 of the IPD OM and rated below a moisture removal capacity (MRC) of 25.0 kg/h at standard rating conditions per Table 2 of AHRI Standard 910. For external resistance, refer to Table 3 of AHRI Standard 910.

Certified Ratings

The following certification program ratings are verified by test:

- Moisture removal capacity, kg of moisture/h
- Moisture removal efficiency, kg of moisture/kWh

The **AHRI Certification Program** is a voluntary program, administered and governed by the Air-Conditioning, Heating, and Refrigeration Institute (AHRI), which ensures that various types of heating, ventilation, air conditioning, refrigeration, and water heating products perform according to manufacturers' published claims. Products that are certified through the AHRI Product Performance Certification Program are continuously tested, at the direction of AHRI, by an independent third-party laboratory, contracted by AHRI, to determine the product's ability to conform to one or more product rating standards or specifications.
