## AHRI MENA Office Staff Profiles

### **François Boueri**

Vice President MENA

[fboueri@ahrinet.org](mailto:fboueri@ahrinet.org)

+971 50 451 3096

François started his career in 1985 at Fedairco, a Lebanese design build HVAC firm. In 1987, he joined McQuay in Minneapolis, USA, and took on increasing responsibilities over the years from product management, export operations, sales, distribution and joint ventures across Latin America, Europe, and the Middle East. From 2007 through 2014, as President of Daikin McQuay Middle East, he established and grew the Daikin presence across the region. He is the founder of SEE Solutions, a strategic consulting firm in the field of sustainability, and serves as a Director on the boards of Over Middle East in Dubai and AMI sarl in Beirut. François holds a B.S. in Mechanical Engineering from Notre Dame University and an M.S. in Construction Management from George Washington University.

### **Khalil Issa**

Managing Director

[kissa@ahrinet.org](mailto:kissa@ahrinet.org)

+971 50 413 4288

Over the past 30 years, Khalil developed partnerships, networks, and multi-disciplinary teams in HVAC manufacturing, district cooling, water utilities, and construction. He comes with a track record in managing business entities and divisions, working in the USA, Lebanon, and in the Gulf region, where he led the creation of a utility startup, directed an EPC contractor in the field of district energy, and engaged with key stakeholders to establish a specialized construction company. Khalil holds an M.S. in Civil & Environmental Engineering from the University of Colorado.

we make life better®

**Nabil Shahin**

Technical Director

[nshahin@ahrinet.org](mailto:nshahin@ahrinet.org)

+971 50 737 8748

For the past 20+ years Nabil has held multiple technical and commercial positions in the residential and commercial HVAC industry. He served as the director of engineering for JCI, Daikin and Goodman, and holds an M.S. in Mechanical Engineering from Tennessee State University. He has also worked as a technical business development director where he interacted directly with HVAC customers, developers, consultants, contractors, regulatory bodies, and government. He is

familiar with various international HVAC regulations and standards in Europe, the Middle East, and Africa regions.

**Dalip Singh**

Technical Analyst

[dsingh@ahrinet.org](mailto:dsingh@ahrinet.org)

+91 88005 40130

Dalip holds an M.S. in Mechanical Engineering and has been working in the HVAC field for 10 years. His latest role was Manager of Research & Development at Systemair, where he looked after product development, testing, and certification of air side products like air handling units, air distribution products, industrial

fans, and fire containment products. He has worked closely various testing, certification, and auditing bodies, is familiar with numerous international standards and codes, and extensive experience in lab set-up and accreditation processes.
