**By becoming a member of the Air-Conditioning, Heating, and Refrigeration Institute (AHRI), we understand that:**

- This application, when accepted by AHRI, shall constitute an agreement;
- We agree to abide by the AHRI Bylaws and any amendments to the Bylaws;
- We agree to pay all dues and comply with the sales volume reporting obligations, as provided by the Bylaws;
- We agree to update the Association on changes to members' representative contact information;
- We understand that providing false information will be grounds for expulsion from the Association;
- We understand that membership may be terminated, or a member may resign, as provided in the Bylaws; and
- We understand a Member shall remain liable for all its financial obligation incurred during its membership and all its annual dues incurred for the year of termination or resignation, prorated on the basis of number of months (i.e., any part of a month will be considered a month) in the fiscal year (January 1 – December 31) during which the member remained a member.

**By signing on behalf of the company, I warrant that I have the legal authority to execute this application.**

**PRODUCT TYPE IDENTIFICATION**

**AHRI member companies are organized into four main industry sectors, depending on the product types they manufacture – Applied (A), Heating (H), Refrigeration (R), and Unitary (U).** A variety of product types are represented by each of these industry sectors. An AHRI Member belongs to a sector when it manufactures one or more product types represented by that sector. For more information on AHRI Industry sectors and product type scopes, please visit <https://www.ahrinet.org/about-ahri/about-us/ahri-industry-sectors>.

Members are required to report sales volume (in U.S. Dollars rounded to the nearest thousand) for the most recent period of July 1 – June 30. The reported sales volume shall include the sale price of goods and FOB Destination shipping charges. Do not include sales allowances, sales discounts, or returns in your reported sales volume. You must provide sales volume information for all AHRI product types you manufacture. *Companies may only join component product types if the component is manufactured for sale to a customer and not just included in your own company's finished product.*

Full and International Membership Applicants should ONLY provide North American sales (i.e., Canada, Mexico, and the United States).

**ALL SALES VOLUME DATA IS KEPT CONFIDENTIAL. Your sales volume is solely used to calculate membership dues and identify product type and sector assignment, for the purpose of establishing voting rights, eligibility for committee involvement, and sector communications.**
